278	246	145	106	72	11/7	73	8	1

NOTE that the CQ CW DX Contest is Nov 23 and 24 ... solar flux is on the rise again and we are expecting conditions as good, if not better, than they were for the Phone Contest. Remember 10 Meters!

• SOUTH ORKNEYS on tap beginning next month by LU8DTQ, who will sign AZ1A from Laurie Island. He especially likes RTTY and plans to operate almost exclusively on that mode, using a KWM2A, C-64, MFJ 1224 interface, and homemade software to a rhombic. Look on 14.090 and 21.090. He leaves sometime early in December on the icebreaker Almirante Irizar for the 5-10 day trip, and will stay until March.

• Stations in Oman will celebrate "15th National Day" by signing their callsigns/15 Nov 11 to 24. A special award is available for working (or SWLing) five A4 stations during the period. Submit log extract and 10 IRCs or equivalent to ROARS, PO BOX 981, Muscat, Sultanate of Oman.

• Geir, JW5VAA, now in Norway, left for another 5-6 months on Bear Island on Nov 10. He'll be active on HF again this trip.

• ZL1AMO was scheduled to arrive on Samoa (5W1CW) Nov 11, stay until the 18th, then travel to Tokelau and sign ZK3RW until the end of November. He has 160 Meter equipment and antennas with him.

• P48K in the CQ Phone Contest was by I8MPO (QSL manager), I8ULL, and I8UZA. P44B in the same contest was by N3ED, WA3LRO, K3EST, and N7ZZ; QSL to N2MM.

• An official press release from the amateurs at HZ1AB says improvements planned for the Dhahran Airport will result in the removal of the building which housed HZ1AB. Lacking other suitable quarters for the next several months, the Dhahran Amateur Radio Club disassembled the station last August. All equipment, antennas and furnishings have been stored near the long-time home of one of Saudi Arabia's most active amateurs. Negotiations for a new operating site are being actively pursued, but a date for coming back on the air has not been projected. K8PYD has all logs and continues as QSL manager for past contacts.

• As for the DX Quiz in Issue 308, turns out the "official" answers weren't so official. Question 11 had an additional answer: the Arctic Circle crosses Iceland. And as for the last question: a line from Boston to the South Pole passes through Brazil and Argentina as well as the other countries listed.

• Both 30 and 12 Meters continue suffering from a lack of activity; W1JR notes working the following in the past two weeks: J28EI, several western Europeans, ZS6, and PY, KV4, and V2. If you hear 10 Meters open during the CQ Contest, and don't feel like contesting, why not call a few CQs on 24MHZ?

• The First Class CW Operators Club (FOC) may begin counting contacts on 12 and 30 Meters for their club awards. Their primary on-going competition is seeing how many club members they can work on as many bands as possible. Expanding this to the two new bands could generate a lot of (CW) activity. We believe FOC has about 1,000 members.

• Portugal will institute a new callsign structure in December. Changes for the mainland are not clear, but the Azores will switch from CT2 to the block CU1-CU8, according to which island in the chain the station is on. There will be changes for CT3 Madeira, also. This is apparently what the Colvins were alluding to when they said their current trip would include "CR8."

• Bad news for 160 Meters: the Nov. 7 ARRL LETTER says that FCC has released a report and order that "non-government radiolocation has been given primary status on 1900-2000 KHz." ARRL has been fighting this move and says they will continue to do so. For now, effective Dec 9, amateur stations in the 1900-2000 range "must not cause harmful interference to the radiolocation services and are afforded no protection from interference arising from radiolocation operations." Details will be in January QST.

We just heard from someone who began operating on 160 Meters last April, and worked DXCC country #100 there last week.

• RSGB notes that BT1PK (by JA1BK) worked a few Europeans on 75 Meters during the CQ Phone Contest, around 1830Z. Also, HS0A appeared on 75 around 2300 and worked several dozen Europeans. A look at a gray line device shows that 2300Z would be a good long path time to work Thailand from eastern North America.

• "BY8AA" on April 23 on 40 Meters was a pirate ... a reader had his QSL bounce over in Chengdu. Enough of this is going on that BY8AA has a special "QSL" to mail to those who have worked a pirate.

• DX NL reports that DF4ZL/CT3 and DF8ZH/CT3 are active Nov 11 to 29, CW only, 160-10 but not including the WARC bands.

QSL HELP NEEDED: KM6EK (1969) and KS6AX (1969) by WA3JBN; ZD9BW (1982), YB2SV (1982), and 4S7WP (1983) by W4JVN.

KA1BU, K1KTB, K4BAI, PT2ADV, W4JVN, KM1H, N4KG, W0IJR, KA0CDN, W4VQ, KB8KW/7, K0CVD, KA1XN, K1LPS, NA1R, N4NO, W8CT, K2OLG, W1CYB, K9UIY, K3RR, K6IR, WB8ZRL, KD7SO, W1JR, I8MPO, K2FL, K1MM, K8ULL, W3OO, W8ZF, I8UZA, N3ED, W7SE, W1EXZ, LU1DZ, K1MEM.

• Answer to the trivia question "who was the first DXCC?" is Frank Lucas, W8CRA (now W3CRA) in Canonsburg Pa. There is a fascinating story about this famous DXer, and we hope to publish it soon.

CALENDAR

AFRICA	W6KG/W6QL active now as W6KG/ZS3; 7P8 next, then A2, 7P, 3D6, S8, ZE, 7Q, 9J, and CR8 as possibilities, through next April. QSL to YASME.
